To: Sunstate Academy Students, Staff, and Faculty

From: Jamie Murphy, Director of Operations

Re: Mask Mandate

By now most of you are fully aware that Governor DeSantis has suspended all Covid-19 restrictions across the State of Florida, including the mask mandate. In response, Sunstate Academy has made the decision to conclude our mask mandate for all students, clients, faculty, and staff beginning May 17, 2021.

Sunstate Academy will continue our current sanitation regimen, with the expectation that each person sanitizes their space and equipment immediately following its use. Moving forward, each individual that enters the building will be personally responsible for their own safety and sanitation protocol. For those individuals wishing to wear a face covering, Sunstate supports their personal decision. We encourage everyone to examine their individual circumstances and make a decision that meets their unique needs. As a close-knit operation, we encourage you to carry a mask and if someone prefers that you wear one while in close contact, then simply oblige their request.

Personal Protection Equipment (PPE) will remain available for use at the request of the clients. Please note that if a client requests PPE to be used, both the student providing the service and the client receiving the service will be expected to comply with the request.

We are hopeful that this will be the necessary step to regaining a sense of normality. And we look forward to continuing our message of ***“GET IN, GET OUT, GET LICENSED, and GET TO WORK”*** with you!
